Perfect Hose for Construction Sites

Jack-Hammer Hose

100% Rubber

- Heavy duty wrapped finish makes it more abrasion resistant
- 9lbs lighter hose than standard jack hammer hoses
- 1200 PSI Burst Pressure
- Stainless steel claw couplings v/s cast iron fittings
- Maintains integrity under extreme weather conditions
- Ozone resistant
- Kink Resistant
- High strength polyester woven braided reinforcement
- 4 Finger grip bend restrictor protects the fittings from damage & offers better control over the hose.

YouTube

BluBird Jack-Hammer hoses are 9lbs lighter than standard jack-hammer hoses and are stronger & more flexible. Designed to offer exceptional flexibility even in extreme conditions down to -50°F up to +190°F these hoses can be used year-round in most parts of the world. These hoses are constructed with abrasion resistant external covers and high strength polyester woven reinforcement to prevent elongation and add superior strength with a 300 PSI working pressure and 4:1 safety factor. The heavy duty wrapped finish prevents the hose from damage and wear in different applications and environments. The BluBird Jack Hammer hose features universal stainless steel chicago type fittings for longer life vs cast iron fittings.

Universal Stainless Steel Chicago Type Fittings

Flexibility in extreme conditions from -50°F to +190°F
